

History and Philosophy of Physics

Research Seminar

When?

Tuesdays

4:15pm – 5:45pm CET

Where?

Zoom

Meeting ID: 958 4153 4987

Passcode: 325476

Organisation

Lichtenberg Group for
History and Philosophy
of Physics,
University of Bonn

Prof. Dr. Dennis Lehmkuhl
and Dr. Niels Martens

To receive weekly
reminders and abstracts,
please contact
nmartens@uni-bonn.de

More Information

<https://www.history-and-philosophy-of-physics.com/events.html>

3 Nov 2020	Juliusz Doboszewski (University of Bonn) Kerr black holes as time machines
10 Nov 2020	Richard Dawid (Stockholm University) How <i>postmodern</i> is cosmic inflation?
17 Nov 2020	Romain Ruzziconi (Université Libre de Bruxelles) Asymptotic symmetries in gravity and the BMS group in (A)dS
24 Nov 2020	Joshua Eisenthal (Caltech & University of Bonn) Hertz's <i>Mechanics</i> and a unitary notion of force
1 Dec 2020	Emilie Skulberg (University of Cambridge) Visual representations of the space around black holes
8 Dec 2020	Eleanor Knox (King's College London) How to be a spacetime functionalist
15 Dec 2020	Gordon Belot (University of Michigan) Why we Can't Know the Shape of Space
22 Dec 2020	Sjang ten Hagen (University of Bonn) Historical Methods in Nineteenth-Century Physics
12 Jan 2021	Lydia Patton (Virginia Tech) Expanding theory testing in general relativity: LIGO and parametrized theories
19 Jan 2021	Dennis Lehmkuhl (University of Bonn) Title tba
26 Jan 2021	Karim Thébault (University of Bristol) Poincaré, Dark Energy, and the Deadly Robots of Krikkit
2 Feb 2021	Tiffany Nichols (Harvard) Title tba
9 Feb 2021	Siska de Baerdemaeker (Stockholm University) The Ultimate Particle Accelerator?
