SOCIETY

TRANSFORMATIVE RESEARCH, PERSONALIZED CURRICULUM: THIS IS THE MAX PLANCK SCHOOL MATTER TO LIFE.

Current Bachelor's-level students with a background in chemistry, physics, biology, biochemistry, bioengineering, or materials science who are interested in a graduate degree are encouraged to apply to the **Max Planck School Matter to Life**.

The program will enable outstanding Bachelor's students to gain their **Master's + Ph.D. degrees** through a 5-year direct-track program:

- Years 1 - 2: M.Sc. phase
- Years 3 - 5: Ph.D. phase

Students will take courses at one of the three participating Universities: **Heidelberg University**, **Göttingen University**, or the **Technical University of Munich**, and may choose from over 50 of Germany's most renowned and successful laboratories to pursue their research.

Students receive:

- **Generous financial support**
- **Dedicated graduate housing**
- **Excellent research opportunities**
- **Access to a diverse scientific network**
